President and CEO
Florida Power & Light Company
P.O. Box 14000
Juno Beach, Florida. 33408-0420

Dear Eric,

The Officers of the System Council U-4, International Brotherhood of Electrical Workers and System Council Office staff write to inform you that we oppose the deregulation of the power industry in the State of Florida. We, as proud members of the International Brotherhood of Electrical Workers, stand in opposition of deregulation.

We are fully aware of the impact that the proposed amendment to Florida's State Constitution would have on our industry, and will not stand idly by allowing corporations to pursue large profits while raising electricity rates to the customers that we serve daily.

We have seen, firsthand, the investment in hardening the infrastructure within Florida Power and Light's service territory in an effort to withstand the effects of a hurricane or other natural disaster while providing increased service reliability year-round. Deregulation would be devastating to Floridians who have grown to enjoy the rapid response and restoration of power to be faced with the uncertainty due to an unregulated power industry.

Respectfully,

Gary J. Aleknavich
